Each of the items listed in the chart are defined in the Library of Definitions in the Streamlined Sales Tax Agreement adopted November 12, 2002, or adopted by the Implementing States subsequent to November 12, 2002. Refer to Appendix C of the Streamlined Sales Tax Agreement for each definition.

Place an "X" in the appropriate column under the heading "Treatment of definition" to indicate the treatment of each definition in your state. If a definition does not apply to your state, enter "NA" in the first column under the heading "Treatment of definition." In accordance with the agreement, your state must adopt the definitions in the Library of Definitions that apply to your state without qualifications except for those allowed by the agreement. For this reason, do not enter any comments or qualifications in the two columns under the heading "Treatment of definition". If your state has adopted a definition in the Library of Definitions with a qualification, do not place an "X" in either column under the heading "Treatment of definition" but include a comment in the "Reference" column explaining the qualification. Enter the applicable statute/rule cite in the "Reference" column.

Sellers and certified service providers are relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state relative to treatment of the terms defined in the Library of Definitions.

Notes:

1. Ohio taxes purchases of "computer services" purchased for business use. See R.C. 5739.01(B)(3)(e). "Computer services" includes custom programming of system software. Programming of custom application software is not a taxable sale. See R.C. 5739.01(Y)(1)(b) and O.A.C. rule 5703-9-46.

2. Article XII, §3(c) of the Ohio Constitution prohibits applying excise taxes to sales of food for consumption off the premises where sold. All food items, including candy and vending machine food, are exempt if for off-premises consumption. Therefore, we do not have a simple Taxable or Exempt answer for these items. We do not use any definition of "prepared food" since this is not a relevant consideration to taxability in Ohio.

3. R.C. 5739.02(B)(18), as amended effective July 1, 2005, exempts, in part, "Sales of drugs for a human being that may only be dispensed pursuant to a prescription." Previous language exempted "Sales of drugs for a human being dispensed pursuant to a prescription." The effect of the change is that over-the-counter drugs are not exempt even if dispensed pursuant to a prescription.
