 Re: Manufactured Home Homestead Exemption Survey for Tax Year 2008

This is a request for data on manufactured home property that was granted a homestead exemption for tax year 2008 (reimbursed in calendar year 2008). Please do not include converted manufactured home ("as real") property tax data; such data should be included in the HE-1 survey.

This data request has been altered in response to legislation enacted last year (Am Sub HB 119) that eliminated the income-based test for the homestead exemption. As you know, this change greatly expanded the number of homestead exemption recipients. As a result, please note the following:

- Number of recipients - include all approved applications, including those homeowners that converted from the previous (income-based) homestead exemption program to the new, expanded program. *Note: If specific figures for each homestead exemption eligibility criterion (disability, age, survivorship) are not available, simply enter the total number of homestead exemption recipients on the indicated line.*
- Reduction in taxable value - report taxable value (not true or market value).
- Reduction in taxes - for taxes payable in 2008 (include both first-half and second-half settlements).
