# Cartridge Tape Filing: IT 1041ES Payments Requirements Definition

## Overview

The Ohio Department of Taxation is providing a "Fast Tax" option to replace the manual paper filing with a cartridge tape(s) for all third-party vendors that file Ohio form IT 1041ES on behalf of their clients. This process will not only eliminate paper and manual processing functions, but also increase the accuracy of the information updated to the taxpayer's file. This requirement's definition will define the requirements and specifications. The Department of Taxation can revoke this option if the user tax is not fully complying with the Fast Tax requirements.

## Department of Taxation Contacts

Contact Russell Strobe at (614) 752-1987 if you have any questions about the Ohio form IT 1041ES information or the cartridge tape. The user must provide the Department of Taxation with a contact person and phone number for reporting production transmittal discrepancies.

## Test Cartridge Tape

Two tapes must be run with the information required. One tape will be sent with documentation and the second tape will be retained by the vendor as a backup. If the production tape is corrupt, the vendor must supply the backup tape within three days. This process should also be continued when production begins. The external label must indicate that this is a **test tape** of Ohio form IT 1041ES test data.

## Send Test Cartridge Tape To:

Ohio Dept. of Taxation – Information Services Division  
S.O.C.C. – 1320 Arthur E. Adams Drive

## Approval Process

Fast Tax will be advised of the test results and informed of changes (if any) that are required before live production begins.
