## Instructions for Completing Application

**(Failure to properly complete an application will result in the denial of the issuance of a certificate.)**

Pursuant to R.C. 5709.25(E), an Application to Certify Additional Property for Air, Noise or Water Exempt Facility may be filed after an exemption facility certificate has been issued, if the cost of the additional property, net of retirements of similar property, exceeds \$500,000 in any calendar year. No additional application is necessary under R.C. 5709.25(E) where the cost of the additional property, net of retirements of similar property, does not exceed \$500,000 in any calendar year. In most situations, a new application is required under R.C. 5709.25(E) for additional property not deemed replacement property, regardless of the cost of such additional property.

- 1.a. Provide the certification number for which amendment is requested.
- 1.b. Check the appropriate space for the type of exempt facility you are requesting (Air, Noise or Water Pollution Control). **Unless line 1.c. of the instructions applies, a separate application must be filed for each exempt facility.** This application cannot be used to transfer a certificate to a new owner.
- 1.c. If the application is for substantially similar facilities located in the same county and by the **same** owner(s), you may initially file one application for all those facilities. This department will notify you if it is required to file separate applications for each facility in the county.
2. Check the appropriate space to indicate the type of ownership. If this facility is jointly owned, check "Joint." **File only one application for all the owners of a facility.**
3. Print the name of the owner of the facility. If the facility for which the application is requested is jointly owned or owned by a partnership, you must list the names of all the owners along with their respective percentage of ownership. If needed, attach a list to this application.
4. Print the mailing address of all the owner(s) of the facility. If needed, attach a list to this application. **Note: This is the location where the approval, or denial, of the certification will be mailed.**
- 5.a. Enter the owner(s) federal employer identification number (FEIN). If you are a sole proprietor and you do not have an FEIN, you must use your social security number. If needed, attach a list to this application.
- 5.b. Enter the owner(s) Ohio charter number (incorporated in Ohio) or license number (doing business in Ohio). If needed, attach a list.
6. Print the name of the facility. If needed, attach a list to this application if this is for more than one similar facility in the same county.
7. Print the physical address of the facility. The physical address is needed for inspection purposes. If needed, attach a list to this application if this is for more than one similar facility in the same county.
8. List the taxing district, township, school district and county where the facility is located. If needed, attach a list to this application if this is for more than one similar facility in the same county.
- 9.a. Provide the total additional requested exempt facility cost. This includes costs that will be taxable and nontaxable if certification is approved.
- 9.b. Provide the facility cost that only includes the portion of additional/adjusted requested costs for which the applicant seeks a tax exemption. **Note: This is the amount that this department is required to report to the appropriate county auditor(s).**
- 9.c. Check the appropriate space to indicate if the costs for 9.a. and 9.b. are actual or estimated.
- 10.a. Check the appropriate space to indicate whether the facility is completed, under construction or in the planning stage. **Note: If this facility is not completed, you must contact this department when the facility is completed because (absent special circumstances) the application will not be forwarded to the Ohio EPA until the facility is constructed and operational.**
- 10.b. If the facility is completed, list the completion date of the facility. If not completed, indicate the estimated completion date.
- 10.c. Enter the date that construction of the facility began. If construction has not started, indicate the estimated start date.
- 10.d. Air, noise or water pollution control facilities require Ohio EPA permits. Provide your permit number(s).
11. You must include the following documents and/or information as attachments for the application to be considered complete (if multiple facilities in the same county are claimed you must note any differences in the facilities):
  - 11.a. Provide a copy of the plans, specifications and drawings of the additional property for which certification is requested.
  - 11.b. Complete the Exempt Facility Property Listing labeled as "Attachment B." All components incorporated in or to be incorporated in the facility, along with the cost of those components, must be listed. **If auxiliary property is claimed, you must clearly indicate the basis and your calculation for how you determined the tax-exempt cost for the auxiliary property.**
  - 11.c. Provide a narrative statement that succinctly explains the purpose and operations of the additional property. You must report the operations of the facility that are both subject to a tax exemption and those operations that are not.
12. The application fee is \$500. The fee is not refundable. Only checks and money orders payable to the Ohio Treasurer of State are acceptable (no cash).
13. Print the name and e-mail address of the primary contact person. **Note: This is the person that will be sent notice for any additional information that is needed to have a complete application** and should be the person that is able to explain any questions regarding this application to this department or the Ohio EPA. If not by an employee of the owner of the facility, a TBOR-1 is required.
14. Print the mailing address for the primary contact person.
15. Print the telephone number and fax number of the primary contact person. If applicable, you may provide an additional number.
16. Check the appropriate space if you want to claim the cost reported on line 9.b. as exempt for certain taxes. While you may be able to file a refund claim, final assessment or tax appeal for property claimed as exempt prior to filing this application, you cannot apply such exemption to any period of time that is otherwise closed by operation of law (statute of limitations).
17. Provide the authorized signature of the person responsible for filing this application. If not by an employee of the owner of the facility, a TBOR-1 is required.
18. Print the name, title and phone number of the authorized person signing this application.

**In order to expedite the processing of your application, please submit in triplicate the application and all accompanying documentation (along with applicable fee) to: Office of Chief Counsel, Tax Appeals Division, P.O. Box 530, Columbus, OH 43216-0530. Phone: (614) 466-6750.**
